

PFTTM-d'Ink

**A Worker Friendly, Environmentally Responsible,
100% Volatile, Non-Ozone Depleting, High Strength,
Specialty Industrial Solvent.**

*PFTTM-d'Ink was designed to
replace flammable and potentially
harmful high strength mineral
spirits such as Acetone, MEK,
MEC, Toluene and Xylene.*

- *OSHA Classified As Combustible*
- *No Residue After Evaporation
(99.80% Volatile)*
- *Non-Corrosive To Metals Such As
Copper, Aluminum, Stainless Steel, etc.*
- *Low Toxicity*
- *No Hazardous Air Pollutants*
- *No Ozone Depleting Potential*
- *Ideally Suited For Removing Solvent
Based Inks, Coatings And Adhesives
From Metal, Fiberglass, Resin And
Plastic Surfaces.*
