

# Turn your used oil filters and paint cans into recyclable scrap steel with our exclusive Oil Filter/Paint Can Crushers!

Choose our full-size Oil Filter/Paint Can Crusher...

- Crushes filters or paint cans with 19,000 lbs. of downforce pressure
- Adjustable 16" high crushing chamber accepts large oil filters or 2 paint cans
- ◇ Helps you comply with 40 CFR 261.4 (b) (13) (i-iv) [1999] for hot-draining oil from filters
- Automatic operation—completes cycle unattended

Air-operated hydraulic PIG Oil Filter/Paint Can Crusher will easily crush standard oil filters—even those with steel core tubes. Or, insert two 1-gallon paint cans into the enlarged chamber: the Crusher will flatten them to a fraction of their original size. Once these cans and filters are crushed, they become valuable "recyclables" instead of costly solid waste.

Puncture tool (optional) punctures top of oil filter to hot drain as much oil from filter as possible. Large drain tray allows you to drain filters both before and after crushing. Drain plugs in the tray let liquids drain into a container for recycling or disposal.

Air-operated hydraulic Crusher operates at a minimum 80 psi (includes air line filter). Cycle time varies with filter size from 25 seconds to 1 minute. 40 seconds.

Ram adjusts in 1" increments—reduces cycle time; allows you to crush even small filters.

**Oil Filter/Paint Can Crusher**

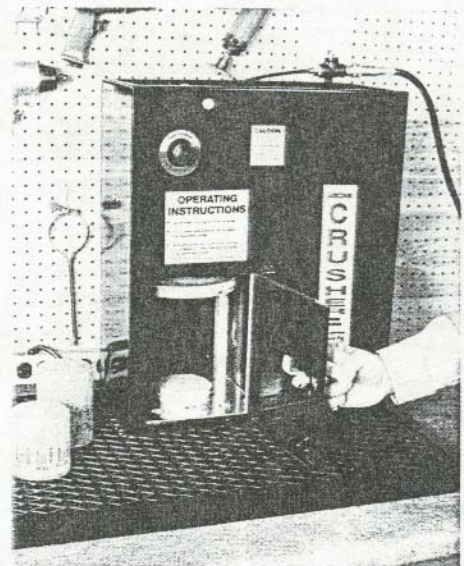

Each	1	2+
DRM584 • 40" W x 84" H 34" D • 479 lbs.	\$3499	\$3399

**Oil Filter Puncture Tool**

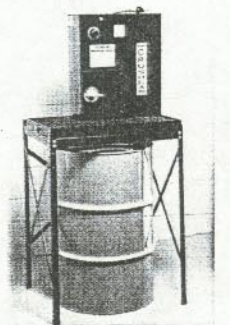

Each	1	2+
DRM585 • 2 1/2" W x 14 1/2" L • 2 lbs.	\$33	\$31

This product is covered by our 1-year limited warranty. For complete warranty information, contact us at 1-800-HOT-HOGS®.

Or the space-saving tabletop model

- Crushing chamber exerts 19,000 lbs. downforce pressure—easily crushes even steel-center oil filters (up to 8") or standard 1-gallon paint cans
- Air-operated hydraulic Crusher—runs on shop air at minimum 80 psi (air line filter included)
- Automatic 25-second cycle at 120 psi—completes crushing cycle unattended
- Drain tray lets you drain filters both before and after crushing
- Drain tray channels liquids into a container for recycling
- Wall-mount bracket available—see order info

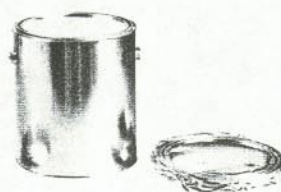

Optional stand fits over a 55-gallon drum; lets you set up a crushing station anywhere you need it.

**Tabletop Oil Filter Crusher**

Each	1	2+
DRM622 • 27" H x 29" W x 18 1/2" D • 173 lbs.	\$2299	\$2199
DRM623 • Stand ONLY 36" H x 29 1/2" W x 24" D • 31 lbs.		\$199
DRM638 • Wall Bracket ONLY 26" L x 19 7/8" W x 17" H • 14 lbs.		\$119

This product is covered by our 1-year limited warranty. For complete warranty information, contact us at 1-800-HOT-HOGS®.

Crushing used oil filters and paint cans turns solid waste into recyclable scrap.

Crush filters to a fraction of their original size. Even filters with steel core tubes can be easily crushed!

Bulky paint cans take up valuable drum space. But when you crush them with our Crusher, you'll get 15 times as many cans in the same space.
