

Skim off
4-6 gallons of
tramp oil per hour!

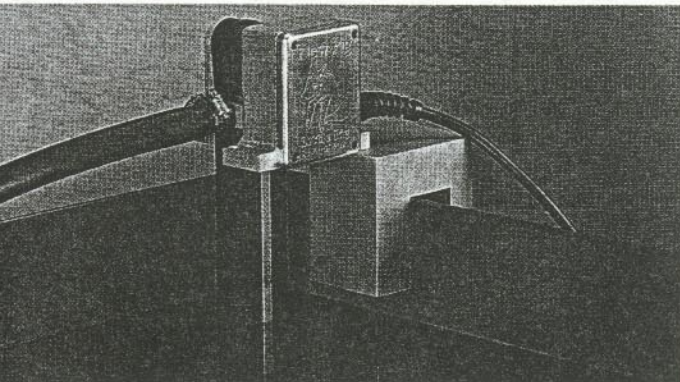

- Adjustable mounting brackets with 4" range from tank wall—mounts easily on most tanks
- Easy to set-up—installs in minutes without tools
- Long-lasting aluminum wheel and nylon wiper blades
- Brushless, continuous-run 110 VAC motor

Prolong the life of your coolant with a PIG® Skimming Wheel. Wheel skims up to 6 gallons of petroleum-based fluids/hour.

Replacement parts available; sold separately.

Skimming Wheel

Box	1	2-5	6+
SKM201 • 12" Dia. wheel Incl. 4 pair of wiper replacements • 11 lbs.	\$207	\$197	\$185

SKM213 • Replacement 12" Aluminum Wheel • 2 lbs.		\$17	

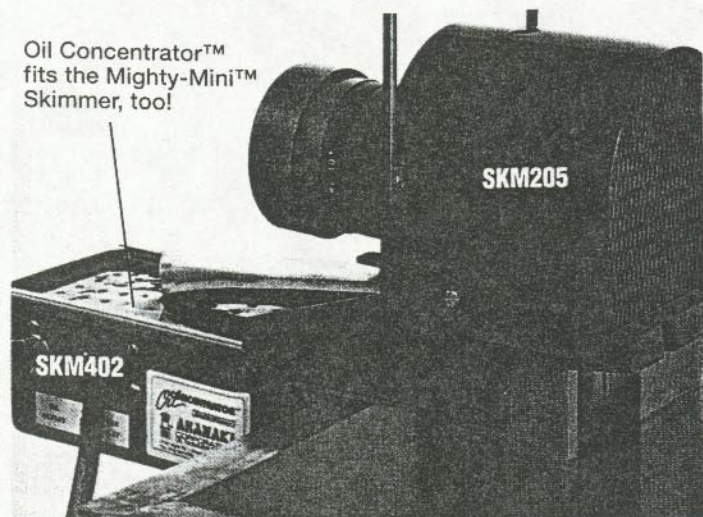

Little Pig Tramp Oil Skimmer fits where no other skimmer will!

- Our smallest skimmer—needs only a 2.8" clearance above a coolant tank
- 16 rpm continuous-run electric motor—removes up to 1 quart of oil/hour without removing coolant
- Oil-resistant 1 1/4" Buna N belt in varying lengths (see order info below)—select the belt length that fits your tank
- Made of 6061 aluminum—lightweight, corrosion-resistant

Little Pig Tramp Oil Skimmer

4" H x 3 1/2" W

1 1/4" W x 18" L	22" L • 4 lbs.	\$239	
1 1/4" W x 32" L	36" L • 4 lbs.	\$279	

Oil Concentrator™ fits the Mighty-Mini™ Skimmer, too!

Portable Oil Skimmer mounts easily to side of tank.

Lift and remove free-standing oil from tanks or drums.

The Abanaki Portable Oil Skimmer can move from tank to tank—or permanently mount right on the tank side. Skims up to 12 gallons/hour and is available with varying shaft lengths to skim tramp oil, gasoline, motor oil—even vegetable oil!

110 VAC motor drives the elastomer or alloy belt. Choose either 2"-wide Belt (skims 6 gal./hour) or 4"-wide Belt (skims 12 gal./hour). Shaft lengths range from 2' to 5' in 6" increments (custom lengths available upon request).

To remove even more oil from your water or coolant tanks, attach the Oil Concentrator™ (sold separately) to your Skimmer.

For smaller tanks or drums, choose the compact Abanaki Mighty-Mini™ Skimmer. It fits into a 2" drum bung and skims up to one gallon of oil per hour. Stainless steel belt has wipers on both sides for more skimming capacity. Stainless steel belts available in 6", 12", 18" and 24" lengths.

Mighty-Mini™ Skimmer is ideal for small tanks or drums.

How to determine Skimmer Shaft length:

Measure from the skimmer mounting point to the water's lowest level and add 1 foot.

For Stationary Skimmers and larger capacities, contact our Custom Order Department at 1-800-HOT-HOGS®. (468-4647)
