

# Materials Handling

Create a safer workplace with proper handling, storage and transportation of materials.  
Save thousands of dollars in clean up costs, wasted materials & regulatory fines!

Front load and top load...can theirs do that?

## Storage & Containment

#EN2045  
2 Drum Roll Top  
Cover w/ Pallet

### 2 Drum Roll Top Spill Pallet Cover

The 2 Drum Roll Top Cover has all of the same great features as our new 4 Drum Roll Top, but it is designed to fit our Tough Job 2000 Spill Pallet (EN5253) for two drum storage. With a maximum sump capacity of 58 gallons and a 2,000 lb. load bearing capacity, the 2 Drum Hardcover and Pallet is designed to stand up to rough outdoor conditions. Combined unit meets EPA 40 CFR 264.175. 63" x 35" x 69".

### 4 Drum Roll Top Spill Pallet Cover

The 4 Drum Roll Top Cover and Spill Pallet unit is ideal for outdoor storage of 55 gallon drums. Its dome design allows for top or side loading while protecting drums from extreme outdoor elements. Designed to fit the Slim Line 6000 Spill Pallet (EN5400), this unit provides a 73 gallon maximum sump and a 6000 pound load bearing capacity. Interior height allows for drum pumps or other drum accessories to stay in place during storage, while optional ramp allows for easy loading and unloading of drums. Combined unit meets EPA 40 CFR 264.175. 63" x 56.5" x 69".
