## When you need a quick fix!

### Plug N' Dike

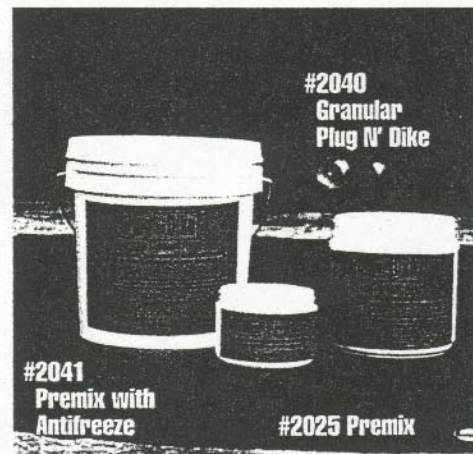

Plug N' Dike is a non-toxic, non-flammable blend of bentonite clay and polymer that forms an immediate seal to control flammable or hazardous leaks and spills. This incredible polymer immediately goes to work in plugging a leak even if fuel is spilling out and the surface is dirty, rusty, or greasy. It absorbs over 300 times its own weight in water into a micro-structure, producing a seal against penetration of fuels and chemicals.

### Granular Plug N' Dike

Add water, knead Granular Plug N' Dike into a sticky paste, and plug the leak. 1 Jar/Box.

### Plug N' Dike Premix

Premix is ready to use right out of the container. Just grab the amount you need and plug the leak! 4lb Jar. 2/Box.

## When the temperature drops...

### Plug N' Dike Premix With Antifreeze

Premix with antifreeze is ready to use right out of the container when you are working in sub-freezing conditions. 1/Box.

## Individually packaged.

### Plug N' Dike Plug Pattie

The Plug Pattie is packaged in a handy one-use size. Perfect for spill kits or glove compartments! Will patch leaks up to 2" in diameter. 8 Patties/Box.
