Ask for it by name!

With non-leaching co-polymer absorbent!

StreamGuard Catch Basin Inserts For Oil & Grease

This oil-only model is equipped with an oil encapsulating absorbent polymer. Unlike common adsorbents, the StreamGuard polymer media will not deteriorate or release absorbed hydrocarbons. As contaminated water flows through the insert, the geotextile fabric absorbs oil and retains sediment. Once contaminants have accumulated, the body of the unit fills with contaminated water and sediment is collected in the bottom of the insert. Floating oil and grease are absorbed by the StreamGuard Co-Polymer contained in a screen bag fixed within the unit. Ideal for gas stations, vehicle maintenance areas, and fuel transfer stations. The right choice where small, frequent, hydrocarbon spills are a reality. With a maximum flow rate of 500gpm, inserts will not cause ponding. **FITS ANY SIZE CATCH BASIN UP TO 30" x 40"!**

FITS ANY SIZE CATCH BASIN UP TO 30" x 40"!

ITEM#	PRICE			WEIGHT (LBS.)

OIL & GREASE CURB INSERT 10/PACK				
3033	\$890	\$845	\$800	56.0

Capture debris at the basin. Keep it off the beach!

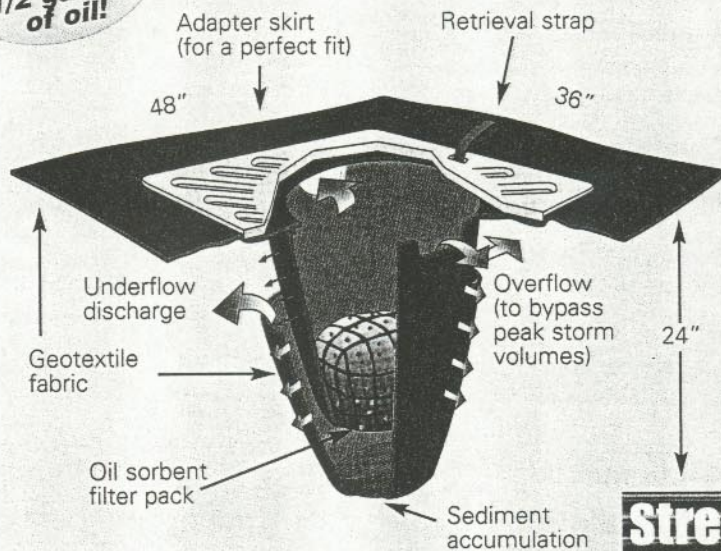

StreamGuard Catch Basin Inserts For Trash & Debris

This catch basin insert is instrumental in the removal of litter and trash from stormwater. As water enters the insert, the mesh bag built into each unit traps floatables such as cigarette butts and candy wrappers. Proven applications include stadiums, commercial waterfronts, and wood products facilities. With a maximum flow rate of 500gpm, inserts will not cause ponding. **FITS ANY SIZE CATCH BASIN UP TO 30" x 40"!**

ITEM#	PRICE			WEIGHT (LBS.)
	QTY 1-4	QTY 5-9	QTY 10+

Absorbs up to 1/2 gallon of oil!

#3001 StreamGuard Catch Basin Insert For Oil & Grease

NOTE: Reuse of the oil unit is not recommended due to the potential for release of captured oil that is absorbed in the insert fabric. If hazardous materials are present in the stormwater, disposal of the inserts should be in accordance with local environmental regulations.

StreamGuard[®]

You asked for it... you got it!

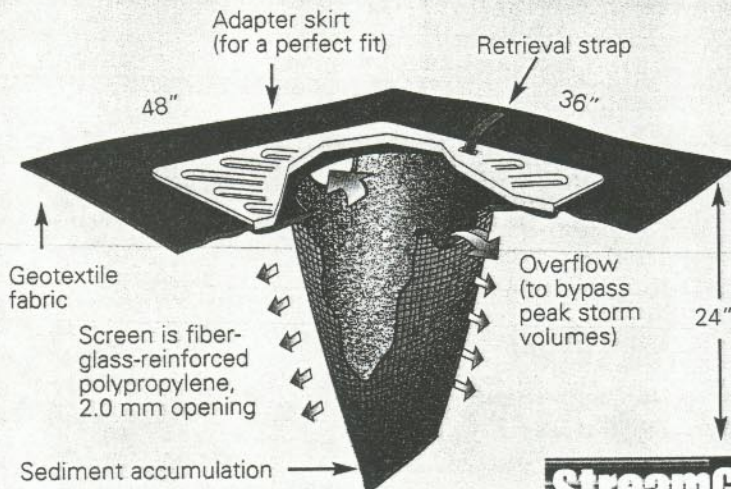

Curb-Style Insert

StreamGuard curb-style catch basin inserts are now available in sediment, oil & grease and trash & debris models. Curb style inserts are universally fitting for catch basins up to 36" wide! Install curb-style inserts just like our standard units, then roll-up excess fabric against curb and tie off with provided clips.

Curb-Style Catch Basin Inserts Now Available For All Styles

#3002 StreamGuard Catch Basin Insert For Trash & Debris
