

# What to expect during an EcoBiz Site Visit:

Review EcoBiz certification checklist (and focus on the following main areas)

**01** Hazardous waste management

**06** Purchasing and inventory management

**02** Air quality and pollution

**07** Recycling practices

**03** Spill prevention and response

**08** Employee training

**04** Product and waste storage

**09** Vehicle washing and stormwater

**05** Cleaning procedures

**10** Energy and water use

**01** Where are fluids stored (new & used)?

**02** If you have parts washers, where are they?

**03** Where are your vehicles washed?

**04** If you have a paint booth, how is it maintained?

**05** Where is your outside storage?

**06** How are your tires stored?

**07** How and where are your chemicals stored?

## Questions we will ask . . .

**08** Where are your refueling stations?

**09** How and where are your work vehicles & trailers stored?

**10** Are your staff trained to use proper PPE?

**11** What spill equipment do you use?

**12** What hazardous waste hauler do you use?

**13** Any other specific checklist items of importance.

This work was funded by an United States Environmental Protection Agency grant to Oregon Department of Environmental Quality. It has not been reviewed by EPA.
